

## REGISTRATION UPDATE

Between June and October 2002 over 500 inspections were carried which were a combination of registration, routine and grading inspections. Establishments that were graded should be patient as the final approval, as prescribed in the Act, can only be made by the board. The board is likely to meet early January 2003 to consider the grading applications. About 119 accommodation establishments and Safari Outfitters were registered as per list below.
